Profile

I am an Auckland University graduate that has a Bachelor of Science Major in Computer Science with specialization in Information Systems. My current goal is to engage in a career that will allow me to make the most out of my skillset while gaining new experience and knowledge. Getting along and working together with peers has always been a strength of mine as I have an easily approachable and outgoing personality, although I also work really well independently. As a kinaesthetic learner, I am able to adapt fast and learn quickly in a working environment, especially through examples and practice.

- **2013 University of Auckland**
 - o Bachelor of Science in Computer Science Major and Information Systems specialisation
- **2009 Mt Roskill Grammar School**
 - o NCEA Level 1,2,3

Work Experience

ShowBox Consultant Group LTD (2014)

- Roles: Junior Graphic Designer
 - o Worked on a project for New Bruce Lee Sushi shop opening in Auckland City which included redesigning the menu boards for the shop. During this project, I was able to learn the importance of time management and working around a client's requirements. I was also able to improve and increase my knowledge in design software such as Indesign and Photoshop.

Arzion Plumbing and Gas LTD (2012 - 2014)

- Roles: Casual Labour
 - o Working under Arzion Plumbing and Gas Ltd helped vastly mature my problem solving skills as well as making precise calculations and measurements. Good teamwork was also a very important and essential quality required for carrying out the work. During the times I have spent here, I have also witnessed the importance of building relationships with clients and customers.

Newton Pharmacy Sport & Health K' Rd (2010 – 2012)

- Roles: Pharmacy Sales Assistant, Lotto Retail, Passport Photographer
 - o During my time spent at Newton Pharmacy Sport and Health on K' Rd, I have gained experience in operating and managing multiple tills at the same time, honing my ability to perform at an efficient pace. I was given the responsibility to open and close the shop, which includes calculating the "end of day balance report". Having been entrusted with the responsibility of taking passport photos for customers meant that I was in charge of making sure the photos met national requirements and standards. Another important experience I have gained would be working with a very diverse range of customers, which taught me how to deal with difficult situations that may arise.

"Just Smash It" Badminton Coach at Blockhouse Bay Intermediate (2010 – 2012)

- Roles: Head Coach
 - o Since being a coach, I have learnt to become a confident leader and an inspiration to the people that I work with. Throughout this coaching experience I have realised the importance of time-management and keeping students under control as a leader. I always experienced with new creative ideas to make each lesson different and fun for the students while allowing them to learn at a reasonable pace. Sometimes, things do not go as planned which allowed me to familiarise myself with the idea of improvising and problem solving.

Extracurricular Activities

2014

- Co-Founder and Designer for street wear label "Decipher."
- Participation in Little Help Project
- Participation in designs on www.designcrowd.co.nz
- Participation in designs on www.threadless.com
